SCTE® Announces 2022 Chapter Award Winners

EXTON, Pa. — (April 6, 2023) — The Society of Cable Telecommunications Engineers (SCTE®), a CableLabs® subsidiary, announced the winners of its 23rd annual Chapter Awards, which celebrate chapters and enable members to acknowledge excellence among those who contribute substantially to the industry by providing local educational opportunities, certification testing, outreach, membership support, and networking opportunities for cable telecommunications professionals.

The organization's Gateway Chapter (based in St. Louis, MO) was named Chapter of the Year after placing third in 2021. The Gateway Chapter also garnered best overall honors in both Compliance, for the second consecutive year, and Training & Development.

Rounding out the top chapters were Chattahoochee (Atlanta, GA) in second, Piedmont (Charlotte, NC) in third, Great Lakes (Waterford, MI) in fourth, Cactus (Phoenix, AZ) in fifth, and Penn-Ohio (Pittsburgh, PA) in sixth.

Other overall winners included:

North Jersey Chapter (Union, NJ): Membership Award and Most Improved Chapter Overall

Chattahoochee Chapter (Atlanta, GA): Striving for Excellence Award

Five Rivers Chapter (Peoria, IL): Most Improved Striving for Excellence Award

Bluegrass Chapter (Louisville, KY): Most Improved Training & Development Award

Greater Chicago Chapter (Chicago, IL): Most Improved Compliance Award

Crystal Coast Chapter (Greenville, NC): Most Improved Membership Award

"Our chapters play an integral role in advancing the goals of our professional member organization," said Robin Fenton, vice president of membership and learning operations at SCTE. "These awards recognize all the outstanding chapters and their leaders, who volunteer their time and energy to provide technical training and advance the cable profession. Congratulations to this year's winners!"

A complete list of 2022 award recipients is available at [SCTE.org](https://www.scte.org).

SCTE chapter members are the most active in the Society. They are dedicated to educating broadband engineers on the latest technologies and leadership skills necessary to be successful. Each local SCTE chapter offers at least 30 hours of technical training a year — approximately 250 technical training sessions in total. More than 60 chapters worldwide offer useful webinars covering the latest industry topics, host vendor days, and provide training resources to help further certification. Find more information at <https://www.scte.org/chapters/>.

The 23rd Annual SCTE Chapter Awards Ceremony was sponsored by Amphenol Broadband Solutions. The winners were honored during the Chapter Leadership Conference in Oklahoma City, an annual two-day event that brings together chapter leaders from around the country to share best practices for promoting membership, networking, and professional development in their local areas. SCTE facilitates awards and recognition programs throughout the year and will soon be accepting nominations for several prestigious awards that will be announced during SCTE Cable-Tec Expo® 2023 in Denver.

About SCTE®, a subsidiary of CableLabs®

SCTE is shaping the future of connectivity. Through technological leadership and innovation, SCTE has served as the applied science leader for the cable telecommunications industry for more than five decades. As a not-for-profit member organization, SCTE moves member companies forward through continuous training for the workforce of tomorrow and by putting leaders into the conversations that matter. SCTE is the force behind the annual SCTE Cable-Tec Expo, the largest cable telecommunications and technology tradeshow in the Americas. Learn more at www.scte.org.
