Licensing declaration:

Please check one of the following statements:

- 1. The Patent Holder will grant a royalty-free license to an unrestricted number of applicants on a worldwide, non-discriminatory basis solely to use the patented material necessary in order to manufacture, use, and/or sell implementations of the above national or international standard.
- 2. The Patent Holder will grant a license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and on reasonable terms and conditions solely to use the patented material necessary in order to manufacture, use, and/or sell implementations of the above national or international standard. Negotiations of such license are left to the parties concerned and are performed outside of the national and international standards organizations.
- 3. The patent holder is unwilling to grant licenses in accordance with the provisions of either 1 or 2 above.

If either box 1 or 2 is checked, please also check here if the Patent Holder's willingness to license is conditioned on reciprocity. Reciprocity means with respect to prospective licensees that have one or more patents or patent claims that also are necessary for the use or implementation of the same national and/or international standards, the Patent Holder shall only be required to license such prospective licenses if such prospective licenses will commit to license their essential patent(s) or patent claim(s) for the implementation of the national and/or international standards for free or under reasonable and non-discriminatory terms and conditions.
